Examiner's Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

In interpreting the claims in light of applicants' arguments presented in the Appeal Brief filed June 20, 2005 and the Specification, the examiner finds the claims patentably distinct from the prior art of record. The applicants argued in substance that the prior art does not teach or suggest "translating a non-markup language object in a workflow system to its representation of a markup language object so that a user of a browser can execute a workflow action required for the translated non-markup language object using the browser." See Brief, page 8. See also Specification, p. 6, lines 4-11; p. 9 and p. 14, lines 1-20. Accordingly, the rejection under 35 U.S.C. 103 is hereby withdrawn.

Further, the terminal disclaimer filed on December 16, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Pat. No. 6,064,977 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
